

Class of 2013

The College of Architecture and the Arts is a unique association of schools, departments, and centers whose programs focus on the exploration of our physical, social, and sensory environments. The purpose of the college is to give a foundation for professional careers in architecture, art and design, art history, and theatre and music. The curricula in each of the units also give students the opportunity to develop a broad understanding of the related disciplines within the college and to explore the extensive resources of the University of Illinois at Chicago.
